In the grid, cells are arranged in rows and columns. Each row uses the same Touch Instrument, similar to a track in Tracks view, and only one cell in a row can play at a time. Changing the timeline grid in GarageBand The timeline beat ruler shows the divisions of time in either beats and measures or minutes and seconds — depending on whether you choose Time or Measures in the LCD at the bottom of the GarageBand window.

iPad Garageband Midi Input Garageband Snap To Grid Snap To Grid Garageband Snap To Grid Garageband iPad 2 Garageband User Guide for iPad The Live Loops grid is where you record, play, and edit your musical ideas. You can start and stop individual cells freely, or start multiple selected cells in sync. Cells in a column can have different lengths (durations) You can play back cells in a column individually, or start playback for all cells in the column simultaneously, using the trigger at the bottom of the column. The grid consists of cells, which can be empty or filled Cells can contain Touch Instrument recordings, loops, or audio files.
